ABOUT ME

My name is Vikas Bhanudas Bhosale, and I am currently pursuing a Bachelor of Technology (B.Tech) in Computer Science from Rai University. With a strong academic record, I have achieved a CGPA of 8.7 and SGPA of 8.5, consistently earning A+ grades in all subjects.

One of my major projects includes developing a Movie Website as a full-stack application, where users can explore and watch various movies. This project helped me gain practical experience in web technologies and enhanced my problem-solving and development skills.

Coming from a supportive middle-class family, my background has always encouraged me to work hard and pursue excellence in both academics and personal growth.

CAREER GOAL

My career goal is to become a skilled and innovative Software Developer who contributes to solving real-world problems through technology. I aim to work in a dynamic and growth-oriented environment where I can continuously enhance my knowledge in web development, artificial intelligence, and data science. My objective is to be part of a forward-thinking organization that encourages creativity, continuous learning, and professional development.

EDUCATION

Qualification	Institution Name	Board
B.Tech(CSE)	Rai University	Rai University
12th(Science)	Sri Tripura jr science collage	maharashtra (Board)
10th	Amav school vairag	maharashtra (Board)
